\(^1\) The area of each panel is approximately 124,150 ft\(^2\) (11,533 m\(^2\)).

\(^2\) “Maximum Capacity” is the maximum volume of TRU mixed waste that may be emplaced in each panel. The maximum repository capacity of “6.2 million cubic feet of transuranic waste” is specified in the WIPP Land Withdrawal Act (Pub. L. 102-579, as amended)
