Subject: Volume of Record Comments WIPP

Please accept this email as my personal comment and recommendation to modify the calculation for disposing of waste at WIPP. The air in the containers should not count towards the volume limits regarding waste. I am in favor of changing the calculation to allow the facility to take on the waste that it was originally designed for and also in favor of expanding if possible.

Should you have any questions, I can be reached by email or phone 575-706-2873 or mail.
