**Subject:** WIPP waste modification

Dear Sir

As a concerned citizen of NM I am very unhappy and even dismayed about the modification of the waste increase of 25% at WIPP. Our state is home to much of the nuclear waste from the labs and bomb making activities. Currently there is an all out campaign to bring even more waste to WIPP and to our SE corner of NM with high level radioactive waste at Holtec across the Highway from WIPP. Please deny this increase of waste to our corner of NM. It is an assault to NM and to the future generations of New Mexicans. We do not want to be the nation's radioactive waste toilet.

Sincerely

Rose Gardner
