**Subject:** FW:

Mr. Maestas,

I ask the New Mexico Environment Department to deny the 'volume reduction' permit modification request .

This permit modification would increase WIPP's capacity by 25%.

This is a big change for WIPP and at the very least requires a public hearing.

I lead an organization that represents people who have been negatively affected by the fallout that occurs after a nuclear explosion. The risk of more storage at WIPP only increases our chances of another nuclear fallout disaster such as the one we have been left to live with.

Sincerely,

**TINA CORDOVA**
