PUBLIC NOTICE No. 18-05 NEW MEXICO ENVIRONMENT DEPARTMENT HAZARDOUS WASTE BUREAU SANTA FE, NEW MEXICO AUGUST 6, 2018 NOTICE OF PUBLIC COMMENT PERIOD AND OPPORTUNITY TO REQUEST A PUBLIC HEARING ON A DRAFT HAZARDOUS WASTE PERMIT FOR THE WASTE ISOLATION PILOT PLANT EPA ID NUMBER: NM4890139088-TSDF

The New Mexico Environment Department ("NMED") is issuing for public comment a draft Hazardous Waste Facility Permit ("draft Permit") for the Waste Isolation Pilot Plant ("WIPP" or "The Facility"). The U.S. Department of Energy ("DOE") and Nuclear Waste Partnership LLC ("NWP"), (together the "Permittees"), submitted a modification request to NMED on January 31, 2018. The request includes modifications to clarify Transuranic ("TRU") mixed waste disposal volume reporting.

WIPP is currently permitted to manage, store, and dispose of hazardous waste, and to close hazardous waste disposal units, in accordance with the New Mexico Hazardous Waste Act ("HWA") and its implementing regulations. NMED is charged with issuing a permit that will ensure that WIPP's hazardous waste operations are managed in a manner that is protective of human health and the environment.

WIPP is located north of Jal Highway (State Highway 128) in Eddy County, New Mexico, approximately 26 miles east of Carlsbad. WIPP is a hazardous waste facility currently operating under a Permit issued by NMED authorizing the management, storage, and disposal of TRU mixed waste at the Facility. Mixed waste is radioactive waste that is also a hazardous waste as defined by the HWA, and is thus subject to regulation by NMED. The DOE owns and operates the Facility, and NWP co-operates the Facility. These entities are collectively referred to as "Permittees" or "WIPP" in the draft Permit and this public notice.

WIPP is a facility authorized by Congress to dispose TRU radioactive waste materials generated by atomic energy defense activities. WIPP manages wastes that are regulated under the federal Resource Conservation and Recovery Act ("RCRA"), the New Mexico Hazardous Waste Act Chapter 74, Article 4 NMSA 1978 ("HWA"), and their implementing regulations. WIPP received a hazardous waste facility Permit from NMED in 1999 to dispose of TRU mixed waste containers 2,150 feet below ground in a mined geologic repository within the Salado Formation. The containers of waste must undergo complete waste characterization by the generator/storage sites in compliance with requirements of the Permit prior to disposal. WIPP is permitted to accept contact-handled TRU waste containers with a surface dose of less than 200 millirem per hour that may be handled directly. WIPP is also permitted to accept remote-handled TRU waste containers with a surface dose of 200 millirem or greater that must be handled either remotely or with sufficient shielding to reduce the effective dose.

WIPP may be contacted at the following mailing addresses: DOE Carlsbad Field Office, P.O. Box 3090, Carlsbad, New Mexico 88221-3090; and Nuclear Waste Partnership LLC, P.O. Box 2078, Carlsbad, New Mexico 88221-2078. The Permittees' primary contact for this permitting action is Mike Brown, Director, Office of Environmental Protection, DOE Carlsbad Field Office, P.O. Box 3090, Carlsbad, New Mexico 88221-3090.

The draft Permit is a proposed modification of the existing Permit. The Permittees submitted a Class 2 permit modification request on January 31, 2018, entitled "Clarification of TRU Mixed Waste Disposal Volume Reporting." The Permittees published a public notice on February 2, 2018 that commenced a 60-day public comment period, which ended on April 3, 2018. Public meetings were held in Carlsbad and Santa Fe on March 6 and 8, 2018. On June 1, 2018, NMED determined that it was appropriate to process the Class 2 modification as a Class 3 modification as there was significant public concern and the complex nature of the proposed change. NMED continued to review the modification under Class 3 procedures. On June 22, 2018, NMED issued a determination of Administrative Completeness. On June 27, 2018, NMED issued a Technical Incompleteness Determination ("TID"), requesting clarification and additional information. The Permittees provided a response on July 12, 2018. NMED has reviewed this response and is now issuing this draft Permit. The draft Permit is based on the modification request submitted on January 31, 2018, and the additional information requested by NMED.

NMED also announces the availability of a Fact Sheet providing the basis for its proposed action on the Permit, and the significant factual, legal, and policy questions considered in preparing the draft Permit. The Fact Sheet explains the basis for Permit changes, including applicable statutory and regulatory support.

AVISO DEL PERÍODO PARA PRESENTAR COMENTARIOS DEL PÚBLICO Y DE LA OPORTUNIDAD DE SOLICITAR UNA AUDIENCIA PÚBLICA RELATIVA AL PROYECTO DE PERMISO PARA RESIDUOS PELIGROSOS DE LA PLANTA PILOTO DE AISLAMIENTO DE RESIDUOS NÚMERO DE IDENTIFICACIÓN EPA: NM4890139088-TSDF

El Departamento del Medio Ambiente de Nuevo México ("NMED" por su sigla en Inglés) hace público el proyecto de Permiso para Residuos Peligrosos ("proyecto de Permiso") de la Planta Piloto de Aislamiento de Residuos ("WIPP" por su sigla en Inglés, o "la Planta") para recibir comentarios del público. El 31 de enero de 2018, el Departamento de Energía de los Estados Unidos ("DOE" por su sigla en Inglés) y Nuclear Waste Partnership LLC ("NWP") (conjuntamente, los "Permisarios") presentaron ante el NMED una solicitud de modificación. La solicitud incluye modificaciones para clarificar el informe del volumen de depósito de residuos transuránicos ("TRU" por su sigla en Inglés) mixtos.

La Planta WIPP tiene actualmente permiso para manejar, almacenar y depositar residuos peligrosos, y para cerrar unidades de depósito de residuos peligrosos, conforme a la Ley de Nuevo México para Residuos Peligrosos ("HWA" por su sigla en Inglés) y los reglamentos para su implementación. El NMED tiene a su cargo la emisión de un permiso que garantizará que las operaciones con residuos peligrosos de la Planta WIPP se realicen de manera que protejan la salud de los seres humanos y el medio ambiente.

La Planta WIPP está ubicada al norte de la Carretera Jal (Carretera Estatal 128) en el condado de Eddy, Nuevo México, aproximadamente 26 millas al este de Carlsbad. WIPP es una planta para residuos peligrosos que funciona actualmente bajo un Permiso emitido por el NMED, que autoriza el manejo, el almacenamiento y el depósito de residuos TRU mixtos en la Planta. Residuos mixtos son residuos radioactivos que también son residuos peligrosos según lo definido por la HWA y están, por lo tanto, sujetos a las normas del NMED. La Planta pertenece al DOE y está administrada por el departamento conjuntamente con NWP. Estas entidades se denominan colectivamente "Permisarios" o "WIPP" en el proyecto de Permiso y en el presente aviso público.

WIPP es una planta autorizada por el Congreso para depositar materiales de residuos radioactivos TRU generados por actividades de defensa con energía atómica. WIPP se ocupa de la gestión de residuos regulados por la Ley Federal de Conservación y Recuperación de Recursos ("RCRA" por su sigla en inglés); la Ley de Nuevo México para Residuos Peligrosos ("HWA" por su sigla en inglés), Capítulo 74, Artículo 4 NMSA 1978, y los reglamentos para su implementación. En 1999, WIPP recibió del NMED un Permiso para plantas de residuos peligrosos para depósito de contenedores de residuos TRU mixtos a una profundidad de 2,150 pies por debajo de la superficie de la tierra, en un repositorio geológico minado ubicado dentro de la Formación Salado. Los contenedores de residuos deben someterse a la caracterización completa de residuos por los sitios generadores/almacenadores, conforme a los requisitos establecidos en el Permiso, antes de su depósito. La Planta WIPP está autorizada para aceptar contenedores de residuos TRU de manejo por contacto con una dosis superficial de menos de 200 millirem por hora, que pueden manipularse de manera directa. La Planta WIPP también está autorizada para aceptar contenedores de residuos TRU de manejo remoto con una dosis superficial de 200 millirem o mayor, que deben manipularse remotamente o con suficiente protección para reducir la dosis efectiva.

Los interesados en comunicarse con la Planta WIPP podrán hacerlo a través de las siguientes direcciones postales: DOE Carlsbad Field Office, P.O. Box 3090, Carlsbad, New Mexico 88221-3090; y Nuclear Waste Partnership LLC, P.O. Box 2078, Carlsbad, New Mexico 88221-2078. Principal información de contacto con los Permisionarios para esta acción relativa a un permiso: Mike Brown, Director, Office of Environmental Protection, DOE Carlsbad Field Office, P.O. Box 3090, Carlsbad, New Mexico 88221-3090.

El proyecto de Permiso es una modificación propuesta para el Permiso existente. El 31 de enero de 2018, los Permisionarios presentaron una solicitud de modificación del permiso Clase 2 titulada "Clarification of TRU Mixed Waste Disposal Volume Reporting (Clarificación del Informe del volumen de depósito de residuos TRU mixtos)". Los Permisionarios publicaron un aviso público el 2 de febrero de 2018, con lo cual comenzó el período de 60 días para presentar comentarios del público, que finalizó el 3 de abril de 2018. El 6 y el 8 de marzo de 2018, se llevaron a cabo reuniones públicas en Carlsbad y en Santa Fe. El 1 de junio de 2018, el NMED determinó que era apropiado procesar la modificación Clase 2 como una modificación Clase 3 ya que había considerable preocupación pública y debido a la naturaleza compleja del cambio propuesto. El NMED continuó examinando la modificación según los procedimientos correspondientes a la Clase 3. El 22 de junio de 2018, el NMED emitió una determinación de Cumplimiento Administrativo. El 27 de junio de 2018, el NMED emitió una Determinación de Información Técnica Incompleta ("TID" por su sigla en inglés); en la que solicitó clarificaciones e información adicional. Los Permisionarios proporcionaron una respuesta el 12 de julio de 2018. El NMED ha examinado esa respuesta y ahora emite este proyecto de Permiso. El proyecto de Permiso se basa en la solicitud de modificación presentada el 31 de enero de 2018 y en la información adicional solicitada por el NMED.

El NMED también anuncia que dispone de una Hoja de Datos que proporciona el fundamento de la acción propuesta para el Permiso y las cuestiones importantes de carácter fáctico, legal y político que se consideraron al preparar el proyecto de Permiso. La Hoja de Datos explica el fundamento de los cambios para el Permiso, e incluye las correspondientes bases jurídicas y reglamentarias.

TERMS AND CONDITIONS UNLESS OTHERWISE SPECIFIED

SPD-101A (07/92)

1. GENERAL: When the State Purchasing Agent issues a purchase document in response to the Vendors bid, a binding contract is created.
2. VARIATION IN QUANTITY: No variation in the quantity of any item called for by this order will be accepted unless such variation has been caused by conditions of loading, shipping, packing or allowances in manufacturing process, and then only to the extent, if any, specified elsewhere in this order.
3. ASSIGNMENT:
 - A: Neither the order, nor any interest therein, nor claim thereunder, shall be assigned or transferred by the Vendor, except as set forth in subparagraph 3B below or as expressly authorized in writing by the STATE PURCHASING AGENTS OFFICE. No such assignment or transfer shall relieve the Vendor from the obligations and liabilities under this order.
 - B: Vendor agrees that any and all claims for overcharge resulting from antitrust violations which are borne by the State as to goods, services, and materials purchased in connection with this bid are hereby assigned to the State.
4. STATE FURNISHED PROPERTY: State furnished property shall be returned to the state upon request in the same condition as received except for ordinary wear, tear, and modifications ordered hereunder.
5. DISCOUNTS: Prompt payment discounts will not be considered in computing the low bid. Discounts for payment within 20 days will be considered after the award of the contract. Discounted time will be computed from the date of receipt of the merchandise or invoice, whichever is later.
6. INSPECTION: Final inspection and acceptance will be made at the destination. Supplies rejected at the destination for non-conformance with specifications shall be removed, at the Vendors risk and expense, promptly after notice of rejection.
7. INSPECTION OF PLANT: The State Purchasing Agent may inspect, at any reasonable time, the part of the contractors, or any subcontractors plant or place of business, which is related to the performance of this contract.
8. COMMERCIAL WARRANTY: The Vendor agrees that the supplies or services furnished under this order shall be covered by the most favorable commercial warranties the Vendor gives to any customer for such supplies or services, and that the rights and remedies provided herein shall extend to the State and are in addition to and do not limit any rights afforded to the State by any other cause of this order. Vendor agrees not to disclaim warranties of fitness for a particular purpose or merchantability.
9. TAXES: The unit price shall exclude all State taxes.
10. PACKING, SHIPPING AND INVOICING:
 - A: The States purchase document number and the Vendors name, users name and location shall be shown on each packing and delivery ticket, package, bill of lading and other correspondence in connection with the shipment. The users count will be accepted by the Vendor as final and conclusive on all shipments not accompanied by a packing ticket.
 - B: The Vendors invoice shall be submitted in triplicate, duly certified and shall contain the following information: order number, description of supplies or services, quantities, unit prices and extended totals. Separate invoices shall be rendered for each and every complete shipment.
 - C: Invoices must be submitted to the using agency and NOT THE STATE PURCHASING AGENT.
11. DEFAULT: The State reserves the right to cancel all or any part of this order without cost to the State, if the Vendor fails to meet the provisions of this order and, except as otherwise provided herein, to hold the Vendor liable for any excess cost occasioned by the State due to the Vendors default. The Vendor shall not be liable for any excess costs if failure to perform the order arises out of causes beyond the control and without the fault or negligence of the Vendor, such causes include, but are not restricted to, acts of God or of the public enemy, acts of the State or of the Federal Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargos, unusually severe weather and defaults of subcontractors due to any of the above, unless the State shall determine that the supplies or services to be furnished by the subcontractor where obtainable from other sources in sufficient time to permit the Vendor to meet the required delivery scheduled. The rights and remedies of the State provided in this paragraph shall not be exclusive and are in addition to any other rights now being provided by law or under this order.
12. NON-COLLUSION: In signing this bid, the Vendor certifies he/she has not, either directly or indirectly, entered into action in restraint of free competitive bidding in connection with this proposal submitted to the State Purchasing Agent.
13. NON-DISCRIMINATION: Vendors doing business with the State of New Mexico must be in compliance with the Federal Civil Rights Act of 1964 and Title VII of that Act, Rev., 1979.
