Overview of the Permit Modification Notification

This document contains a Class 1 Permit Modification Notification (PMN) for the Waste Isolation Pilot Plant (WIPP) Hazardous Waste Facility Permit (Permit) Number NM4890139088-TSDF.

This PMN is being submitted by the U.S. Department of Energy (DOE) and Nuclear Waste Partnership LLC, collectively referred to as the Permittees, in accordance with Permit Part 1, Section 1.3.1. (20.4.1.900 New Mexico Administrative Code (NMAC), incorporating Title 40 of the Code of Federal Regulations (CFR) §270.42(a)). The PMN in this document is necessary to notify the New Mexico Environment Department (NMED) of a change which impacts the Permit. This change does not reduce the ability of the Permittees to provide continued protection to human health and the environment.

The requested modification to the Permit and any related supporting documents are provided in this PMN. The proposed modification to the text of the Permit has been identified using red text and double underline and a strikeout font for deleted information. All direct quotations are indicated by italicized text.

Item 1

Description

This modification updates Permit Attachment A, Section A-6, *Chronology of Events Relevant to Changes in Ownership or Operational Control*, to reflect a change in ultimate parent company applicable to the Management and Operating Contractor (MOC), Nuclear Waste Partnership LLC, as a result of the sale of AECOM's Management Services group to Lindsay Goldberg/American Securities.

Basis

This modification is a Class 1 modification pursuant to 20.4.1.900 NMAC (incorporating 40 CFR §270.42, Appendix I, A.1, *Administrative and informational changes…*).

Discussion

On January 31, 2020, Lindsay Goldberg/American Securities purchased AECOM’s Management Services group, forming a new company named Amentum. Included in that transaction was AECOM Energy & Construction, Inc., which continues to be the legal guarantor and majority owner of the MOC, Nuclear Waste Partnership LLC. No changes are being made to the MOC. Nuclear Waste Partnership LLC is still comprised of AECOM Energy & Construction, Inc. and BWXT Technical Services Group, Inc. This is a change in ultimate parent company only; there was no change in operational control. Therefore, this change does not constitute the required permit modification under 20.4.1.900 NMAC (incorporating 40 CFR §270.40) necessary to reflect the transfer of the permit to a new operator. This change is needed to update the Permit with current information.
