Subject: [EXT] Nuclea waste traffic on 285

Mr Ricardo Maestas,

We must be given time to submit comments about this once the pandemic is over. It is impossible for the public to do so while trying to protect our families from Covid, keep our jobs or find new ones, and pay rent or mortgage. This decision affects us directly because the DOE plans to transport this waste for decades past our homes on HWY 285. It is only fair to allow us to present our concerns once the pandemic is over.

Thank you.

Jean De Lataillade
