Mr. Maestas:

Please accept this email in support of the Modification allowance. I'm sure you've heard from many of fellow supporters as well as a few but very vocal detractors. I support this is because for all intents and purposes it is simply allowing for the relocation of space we had available for storage that was lost due to the "kitty litter" snafu that caused a release which led to the closure of existing storage space. This action will not change the scope, capacity or amount of waste we are to take in, in support of our American mission of safe & sound disposal of TRU.

Thank you for your time and consideration,
