In response to the above referenced letter, the Carlsbad Field Office (CBFO) Quality Assurance Division (QAD) has reviewed the second request for extension for submittal of the corrective action completion documentation for the CBFO Corrective Action Report (CAR) 22-001.

The second request states that the CAR closure package cannot be submitted and completed until the review and approval of the Technical Procedure (TPR)-8089, *Real Time Radiography Examinations* (Certification Scans), is complete.
