Mr. Robert H. Neill  
Director  
ENVIRONMENTAL EVALUATION GROUP  
State of New Mexico  
P. O. Box 968  
Santa Fe, NM 87504-0968

Dear Mr. Neill:

In your letter of May 16, 1986, you requested a draft of the schedule for activities related to evaluating compliance with 40 CFR 191 including Performance Assessment.

The compliance plan is currently in draft form and is being reviewed within DOE. The review process will include review by the Albuquerque Operations Office and by DOE Headquarters. Upon completion of the review process, the compliance plan, including the schedule, will be finalized and issued by DOE. A copy of the compliance plan will be provided to you at that time. We are mindful of your concern regarding budgeting and will make every effort to expedite our response.

Should you have further questions, please contact me or Dick Crawley of my staff.

Sincerely,

  
W.R. Cooper  
Project Manager
