Subject: QA Plan for 40 CFR191 Activities

Reference: a) Letter CA:86:0275, T.D. Miller, W/QA to D. E. Bishop, WPO/QA, "same subject", dated October 3, 1986;  
b) WIPP:RES 86-1408, D. E. Bishop, WPO/QA to T. Miller, W/QA, "QA Plan for Performance Assessment Activities", dated September 17, 1986.

Dear Mr. Bishop:

The purpose of this letter is to supplement Reference (a) to provide a tentative date for submittal of the subject plan requested by reference (b).

In discussions with your office, on October 25, 1986, a date of January 15, 1987 was established for submittal of the draft plan.

We will continue to work very closely with your personnel in development of an acceptable QA Plan that is suited to Westinghouse responsibilities associated with 40 CFR191 compliance activities.

Questions regarding this matter may be directed to W. H. Sword of my staff.

T. D. Miller, Manager  
Westinghouse Quality Assurance
