Dear Kirkland:

Just a brief note to thank you for sending me a copy of the study entitled "Economic Benefits to New Mexico, the Uranium Mill Tailings Remedial Action Project, Ambrosia Lake, New Mexico, March 1988." I appreciate having this information. I am very interested in this topic. I have sponsored a bill, S. 2097, that will help clean up mill tailings sites, and I'm sure the information in this study will be most helpful.

Again, thank you.

With best personal regards,

Sincerely,

Pete V. Domenici
