**Subject: Omission of Figure from Selected NMED Comments on the 1992
Performance Assessment**

Figure 3.4 was inadvertently omitted from an April 12, 1994 transmittal to Mike McFadden concerning selected NMED comments on the 1992 Performance Assessment. Enclosed please find this figure outlining the possible extent of Dewey Lake perched aquifer within the WIPP site. A full discussion of this issue is included in the April 12, 1994 transmittal and in the RCRA Facility Assessment background report to be released in May, 1994.

Sincerely,

Paul Sanchez (GEO III)
