memorandum

Carlsbad Area Office
Carlsbad, New Mexico 88221

DATE: DEC 28 1994

REPLY TO
ATTN OF: CAO:WSB:ES&H:RFF 94-2802

SUBJECT: The Fiscal Year (FY) 1994 Annual Update to the Waste Isolation Pilot Plant (WIPP) Final Safety Analysis Report (FSAR)

TO: C. M. Cox, General Manager, Waste Isolation Division

The Waste Isolation Division (WID) is directed to incorporate the 1994 annual update revisions (attached) into the WIPP FSAR. This ensures the WIPP site will be operating from a current version of the FSAR for the development of the 1995 annual update for disposal operations.

The draft 1994 annual update revisions have been provided concurrently to the State of New Mexico Environment Department, the Environmental Evaluation Group, and DOE EM-342 for review. Any resulting review comments, which require modifying the subject revisions to be resolved, will be addressed either through a WIPP FSAR revision or as part of the 1995 annual update.

Please notify the responsible CAO Line Manager, Richard Farrell, when the referenced revisions have been incorporated.

If you have any questions regarding this matter, please contact Richard Farrell at 234-8639.
