WIPP file

Mark Weidler, Secretary Designate
New Mexico Environmental Department
P.O. Box 26110
Santa Fe, NM 87502

Dear Mr. Weidler:

Please find enclosed a copy of our revised Chapter A, Part A Permit Application; C, Waste Analysis Plan; L, No-Migration Determination; and M, Certification, of the Resource Conservation and Recovery Act (RCRA) permit application. Three additional copies of these chapters are being sent to the Hazardous & Radioactive Materials Bureau.

Our next submittal will be on May 31, 1995. We will be submitting as Revision 5, a complete application containing all required chapters and appendices. This submittal will fulfill the requirements of submitting a complete revised permit application as dictated in the September 2, 1994, *Order On Draft Permit* signed by then-Secretary Judith M. Espinosa.

With the May 31, 1995, submittal, we will continue to meet milestones as outlined in the Disposal Decision Plan (DDP). As you are aware, the DDP is the schedule we are following to opening the Waste Isolation Pilot Plant. We are looking forward to the next step of continuing dialogue with your staff. I commit to making our project participants available to finalize any efforts required by the New Mexico Environment Department to complete your review of the permit application.

If you have any questions or require further information, please contact me at (505) 234-7300.

George E. Dials
Manager
