ATKEARNEY

Mr. Cliff Hawley, Chief
Personnel Services Bureau
New Mexico Environment Department
P.O. Box 26110
Santa Fe, NM 87502-6110

Dear Mr. Hawley:

A.T. Kearney, Inc. and its subcontractor, ICF Kaiser Engineering, Inc. (ICF KE) is pleased to provide you with five copies of the Kearney Team proposal. This proposal is in response to the New Mexico Environment Department's (NMED) solicitation for assistance with the WIPP Disposal Phase Part B permit application. The proposal consists of two volumes. Volume I contains the technical proposal with all associated technical appendices. Volume II contains confidential cost information and information on liability insurance, conflict of interest and bonding information.

The Kearney Team has a proven record in successfully fulfilling NMED's needs. Through our previous contract with the State of New Mexico and our EPA RCRA Implementation contract, we are extremely knowledgeable regarding the WIPP site. The Kearney Team has evaluated over 1,000 Part B permits under the EPA RCRA implementation contract and have developed a proven approach to the review and evaluation of Part B permit applications.

The Kearney Team has a dedicated staff of career professionals who have been proposed for this assignment. All key personnel have direct experience with WIPP. These individuals also understand the Agency support role with these types of assignments, and realize that our involvement is to provide assistance to the State of New Mexico.

We are confident that we can provide NMED the highest quality deliverable. Since we are so familiar with the WIPP site and the type of work, the proposed staff can "hit the road running" with no need to learn the ropes at New Mexico's expense.

If we receive this assignment, the Kearney Team will look forward to once again working closely with the State of New Mexico.

Sincerely,

A handwritten signature in black ink, appearing to read "John G. Darabaris". The signature is fluid and cursive, with a large initial "J" and "D".

John G. Darabaris
