Subject: NMED Request for Proposals For Professional Services

Dear Mr. Hawley:

Belfort Engineering & Environmental Services, Inc. (Belfort Engineering), of Albuquerque, New Mexico, is pleased to submit this proposal on behalf of the New Mexico Environment Department's (NMED) March 29, 1995, Request For Proposals For Professional Services - "Waste Isolation Pilot Plant Resource Conservation And Recovery Act Permit Application Review."

As requested in the RFP, we are submitting one (1) original and (5) copies of our proposal. Belfort Engineering acknowledges receipt of the April 28, 1995 revisions to the original RFP.

To simplify the review process for NMED personnel, checklists following this letter correspond with key documents supplied with the RFP packet. These include: (1) "Required Components For Proposals" and (2) "Proposal Evaluation Criteria." The checklists indicate where in the proposal (page number, paragraph number and/or appendix) requested or required information can be found, e.g., "Proof Of Liability Insurance" is in Appendix A.1. If you have any questions, please feel free to contact me.

Belfort Engineering and its teaming partner, Parsons Engineering Science, Inc., realize the importance of this effort and feel we have the technical expertise to provide NMED with the necessary services to complete this scope-of-work in a timely and cost-effective manner.

Sincerely,

Stephen L. Irish
Marketing Manager
