Mr. Benito Garcia  
New Mexico Environmental Department  
Hazardous & Radioactive Materials Bureau  
P.O. Box 26110  
Santa Fe, N.M. 87502

Dear Mr. Garcia:

Please find enclosed the response to your comments on Chapters C and G of the Waste Isolation Pilot Plant Resource Conservation and Recovery Act (RCRA) Part B application. We received your comments on these chapters on November 3, 1995, and December 1, 1995, respectively.

Our responses are transmitted to you in draft format and also contain the redline/strikeout version of the text in both hard copy and on floppy disk in accordance with your request. Additionally, to facilitate your review of our responses, Steve Zappe of your staff has authorized us to provide our responses directly to A. T. Kearney, Inc.

This transmittal completes our draft responses to your technical review comments. We will submit in final redline/strikeout form, on January 17, 1996, all revisions made in response to your comments to our RCRA Part B application. As I indicated in previous transmittal letters, we anticipate meeting with you and your technical staff to discuss our responses to your comments on January 8 and 9, 1996. We will be coordinating this meeting with your staff in the near future..

If you have any questions, please do not hesitate to contact me at (505) 234-7486 or Craig Snider at (505) 234-7452.

Sincerely,

*for* *James A. McWhinney*  
Michael H. McFadden
