Good Afternoon!

This is the second notice concerning the upcoming 53rd WIPP Quarterly Review meeting. DOE has requested that the meeting date be changed once more, so it is now currently scheduled for **Thursday, January 25, 1996, at 8:30 AM**. The meeting will be held at our old location in the Marquez Place conference room, 525 Camino de los Marquez, Santa Fe. I will provide a map and directions later in January for those unfamiliar with the location.

Attached is a tentative proposed agenda, containing most of the topics suggested in response to the December 12 fax. DOE will have to review this list and decide which ones they can address, but we optimistically hope all topics will be covered in some manner. I request that, due to the very "aggressive schedule™" offered, each speaker target their presentation to this knowledgeable audience and eliminate non-essential material. Plan to speak for five minutes less than your time allotment to allow for discussion and schedule slippages.

I intend to issue a revised agenda following the Christmas/New Year's holidays, once DOE has had an opportunity to respond and make suggestions of their own. In the meantime, have a safe and enjoyable holiday!

Sincerely,

Steve Zappe
