Re: WIPP

Dear Mr. Garcia:

I understand the Hazardous and Radioactive Materials Bureau of the New Mexico Environment Department has issued a Notice of Deficiency to the U.S. Department of Energy and Westinghouse concerning the application for the Waste Isolation Pilot Plant. I am requesting a copy of the Notice of Deficiency and associated Comments (the NOD package). I also request that you place my name on your mailing list to receive future mailings concerning WIPP. If you have any questions or would like additional information, please feel free to contact me at the address or phone number on this letterhead. Thanks in advance for your help.

Sincerely,

Kathleen M. Sisneros
President
