Subject: REVISIONS TO SUBMITTAL OF MAY 15, 1997

Dear Mr. Zappe:

Several errors were recently discovered in the original submittal of May 15, 1997, due to the conversion process from WordPerfect 5.2 to 6.0 and the preparation of Revision 6.3 of the RCRA Part B Permit Application against Revision 6.0 rather than Revision 6.1. Therefore, this submittal supersedes the information provided to you on May 15, 1997, in its entirety. These are changes to format only; no change in the substance of the information is involved.

Enclosed please find three hardcopies of the specific page changes to the RCRA Part B Permit Application, three hardcopies of a redline/strikeout version of the changes, and an electronic version of both the page changes and redline/strikeout. The electronic version contains the entire chapter for those where page changes were made. We have also revised the matrix which identifies the application pages and the lines where the changes have occurred, to account for the revised format.

I apologize for any inconvenience this may have caused you. If you have any questions regarding this revised information, please contact me at (505) 234-8720.

Sincerely,

K. A. Leonard
for Karen A. Day, Manager
RCRA Permitting
