Carlsbad, NM 88221-2078

Dear Ms. Shafer:

RE: Questions concerning WID controlled documents

Thank you for providing the additional controlled documents I had requested from Bob Kehrman. Enclosed is the "Calibration and Control of Monitoring and Data Collection Equipment Handbook" which you asked me to return. However, I have several additional questions concerning the WID controlled documents.

1. You supplied a separate binder cover "WP 12-5 WIPP Radiation Safety Manual", which I assume is intended to replace the cover for WP 12-5, Volume 1. However, the spine still says "WIPP Radiological Control Manual". Can I go ahead and change the spine to reflect the new name?
2. I'm missing two documents in "WP 12-9, WIPP Emergency Plan and Administrative Procedures Volume 1":
12-ES1001 Haskel Oxygen Pump Operation
12-ES1124 Operation of Breathing Air Compressor, 45-G-621
3. I recently received page 2-15 to insert into WP 13-1. I haven't done a complete check, but I'm also missing pages 2-12 through 2-14.

Attached is a listing of the WID controlled documents currently in the NMED WIPP library. Please verify that these are the correct manuals for our location, and that we have been receiving all updates to these manuals. For your information, Ms. Claudine Jaramillo retired at the end of 1996, and I have assumed responsibility for updating these documents. If you have any questions, please call me at (505) 8277-1561.

Sincerely,

Steve Zappe
