Santa Fe, NM 87502

Dear Steve,

As discussed at the WIPP quarterly meeting, I enclose two computer disks (and a stamped, self-addressed envelope!) so that you can provide the changes to the Part B permit application (Rev 6.3) and the revised Groundwater Monitoring Plan (Rev 6.4).

I believe that you also said that you could provide the index to the correspondence files done by the intern.

Thanks for your help. Please call me if there are any questions about this request.

Sincerely,

Don Hancock
