

Hi Steve:

I'll fax you the letters today (Monday, 9/15)

Message:

Mary - I never received a copy of the letter from EPA to the "State" informing us of the need for you to notify us whenever there are interactions between EPA and DOE (i.e., the rationale for you sending Lindsay, Lokesh, and myself the periodic e-mail notices). Could you possibly fax that letter to me at 505/827-1544 for my files? Also, if there was any correspondence from NMAG to you which precipitated this, that would help. Of course, if you are really busy right now, just point me to where I can find these in the docket, or I'll ask Lindsay instead. Thanks!

Steve
