COMMENTS

J.R. -

Here's the list of where NMED has placed public copies of the WIPP RCRA Part B Permit Application. We mentioned all but Santa Fe community College and the NMED Library in our June 15, 1995 public notice of Revision 5. You might check with the District Offices listed below, since they may only have Revision 5 - I haven't located any correspondence indicating they received Revision 6, but I'm pretty sure you got it to them last year. If you have any questions, let me know!
