*You are cordially
invited to help
Concerned Citizens for
Nuclear Safety
stop the opening
of WIPP in 1998.*

*Please reply on or before
February 1998
or forever hold America's
nuclear waste.*

WHO: *Everyone who wants to stop WIPP because of health, safety, transportation, economic, or environmental concerns about the proposed New Mexico underground repository for the nation's nuclear weapons waste.*

WHEN: *NOW—it may be our last chance!*

WHY: *Despite the concerns of many scientists and citizens that WIPP is still unsafe, the Department of Energy recently announced its intention to open the facility in **May 1998**. This fall, EPA caved into DOE pressure and announced its preliminary decision to approve DOE's WIPP Certification Application. **WIPP** will **OPEN** in **1998** unless EPA reverses its decision or a court stops DOE.*

What : *CCNS needs money now for the law suits which are being filed to keep WIPP from opening.*

CCNS has been invited by the Attorneys General of Texas and New Mexico to participate in several law suits seeking to stop the opening of WIPP because of safety problems. Citizen support for a law suit in 1991 helped stop WIPP from opening then. We can do it again, but only with your support. All contributions are tax deductible. Please give generously this year.

OUR FUTURE DEPENDS ON IT.

1998 is when the rubber meets the road in the 20 year battle against an unsafe WIPP. Join CCNS and citizens across the country telling DOE

"WE ARE NOT WIPP'ED YET!"
