RE: Request for WWIS information on WIPP shipments

As discussed in our phone conversation, please fax me the following:

- 1) WWIS report on containers of waste at Rocky Flats that are pending characterization, pending certification, or certified for WIPP.
- 2) WWIS report of certification of six additional standard waste boxes at LANL, which are presumably the next (third) shipment.
- 3) WWIS information on containers at INEEL, either pending characterization, pending certification, or certified for WIPP.

Please provide me the information that you have on those matters, or whenever the next time that you print out such information.

Thank you very much for your cooperation.
