Don -

Attached are the summaries addressing the request you submitted to me. As of this afternoon, there were only two LANL shipments - one emplaced, one shipped. The third shipment has yet to be assembled.

At this time I am unable to provide you with data reports for all waste containers. Each container report takes anywhere from 3 to 5 minutes to print, and with 50 containers at INEEL and 115 at RFETS, I wouldn't get much work done. Also, the WWIS access I've been given doesn't appear to have any report which summarizes container numbers other than the shipment report, as you've seen on the LANL summaries I sent you a couple of days ago. I have to work with the limitations imposed by the system at this time. Let me know if I can be of further help.

*Steve*
