RE: Request for WWIS information on WIPP shipments

Please fax me the following:

- 1) WWIS report on the ninth shipment of wastes from LANL to WIPP.
- 2) WWIS summary information on containers at Rocky Flats "in the system" as pending certification or approved certification. As you know, DOE has provided a written two-week notice that the first shipment from Rocky Flats will be on June 15, so I'm particularly interested in what the WWIS shows about that shipment and the second RFETS, scheduled for June 24.

Please provide me the information that you have on those matters, or whenever the next time that you print out such information.

Thank you very much for your cooperation.
