COMMENTS

Don -

Sorry for not responding sooner to your June 17 (and followup June 23) request for WWIS info, but we've been busy preparing our submittal to the hearing officer. Here are the items you requested, along with a few bonus reports I thought you would be interested in. Attached is info on the 12th LANL shipment, and an example Waste Container Data Report for the RF005.01 waste stream.

Also, we are expecting to receive a data package from DOE concerning the hazardous waste determination for RF005.01 later today. Please call me to arrange a suitable time to review this and the RF003.01 data.

Steve
