COMMENTS

Don -

No additional shipments have been entered into the WWIS as of 2 PM today. Attached is the final shipment report for the RFETS salt residue waste received July 2. I understand the next shipments will occur on July 14, from both LANL (LA00013) and RFETS (RF99003). I expect those shipments will appear in the WWIS early next week. I've also included a current repository report.

Also attached is the letter you requested.

Steve
