ENTERED

Don -

I attempted to access the WWIS this afternoon, but the electronic Secure Net card used to verify my identity on the dial-up connection is not working properly. I sent e-mail to Mike Brown of CAO describing the problem, and will call him tomorrow if I haven't heard back by noon.

To my knowledge, there has been no response to our July 1 letter related to Rocky Flats waste.

I'll provide the request information after the card gets fixed. However, I will be on vacation (again) from Friday July 30 through Tuesday, August 24. I'll get things to you as I can in the meantime.

Steve
