TO: Tom Krause

The Carlsbad Area Office (CAO) has recently received inquiries from the EPA regarding inconsistencies in the revision number and dates to the TRUtech QAPjP.

Accordingly, and to allay any further questions and/or concerns from the EPA, the CAO is requesting a statement of commitment from TRUtech, to correct any and all inconsistencies with the revision and dates to their QAPjP. The revisions/corrections should occur at the next periodic review of the QAAPjP, and/or prior to initiating work under this QAPjP. CAO will verify correction of this issue at the next audit.

Please submit your statement of commitment, regarding this request, to CAO by August 27, 1999.
