GROUND WATER/HAZARDOUS WASTE
BUREAU

Mr. Anthony Drypolcher
Chief of Ground Water & Hazardous Waste Bureau
Health and Environment Department
Environmental Improvement Division
725 St. Michael's Drive
Santa Fe, New Mexico 87504

Dear Mr. Drypolcher:

As you probably know, Plateau received two letters dated March 12, 1984 from Mr. Raymond R. Sisneros, then Health Program Manager of the Hazardous Waste Section of the State's Environmental Improvement Division (EID). I responded to those letters by letter dated April 10, 1984, copy enclosed. Since that time, I have had several telephone conversations with persons at the EID and at the U. S. Environmental Protection Agency's Region VI office (EPA). I believe my letter to be self-explanatory; the principal reason for the phone calls has been to schedule a meeting with representatives of the EID and the EPA to discuss waste management at Plateau's Bloomfield, New Mexico refinery.

I understand that EID and EPA wish to await the results of tests taken at the refinery before concluding their review of the issue and scheduling a meeting with Plateau representatives. Accordingly, in the interest of facilitating our discussions, I am requesting that Plateau be provided with a copy of the test results.

To reiterate, we are eager to meet at your earliest opportunity following receipt of the latest analytical results, and hope that we are able to resolve this matter with you in the very near future.

Very truly yours,

Virginia L. Molino
Secretary & General Counsel
