Dear Mr. Lyssy:

In accordance with VI.5.b. of the Order, Giant Refining Company - Bloomfield (GRC) submits this monthly progress report.

Interim Measures (IM) Progress

1. Interim Measures, including product recovery from onsite recovery wells, continues. GRC will be performing the semi-annual groundwater sampling event on November 19 - 21.

Corrective Measures Study (CMS)

1. GRC is accumulating additional information to prepare a detailed submission for Section 7 of the CMS. That information includes a significant survey of the current separate phase hydrocarbon thickness in monitor and recovery wells onsite. Wells that do not have SPHs will be analyzed for dissolved BTEX. This will be done concurrent with the groundwater sampling event.
