Cindy

In reference to your July 20, 2005 letter regarding the annual groundwater sampling "campaign." NMED is requiring Giant to collect depth to water (DTW) and depth to product (DTP) measurements in all wells that are not scheduled to be sampled during the August 8, 2005 sampling campaign. This information will help determine and track changes in groundwater and product movement since the installation of the barrier wall.

If you have any questions please contact me.

Sincerely

Hope
