Subject: Giant Bloomfield SI additional information
Attachments:  EPA_GRCB_doc.pdf(3MB)

All

Attached is information that was inquired about during the conference call that took place this Thursday (10/6/05). I have included a letter dated June 27, 2000 that addresses Giant Bloomfield's aggressive biological treatment at the aeration lagoons, a signed copy of Section XVIII. Certification(s) of the Hazardous Waste Permit Application Part A which is included in the Part B Permit Application. The last document included in the attachment is the 2005 first and second quarter analytical results for the compliance monitoring for the injection well. NMED will provide EPA with past quarterly analytical results for the injection well once the information has been gathered. The PDF file should be a total of 10 pages.

Please call me if you have questions. Thank you

Hope
