**RE: Giant - Bloomfield Refinery  
EPA ID# NMD089416416**

Dear Ms. Monzeglio,

Giant Refinery – Bloomfield will be collecting semi-annual groundwater samples starting the week of April 3, 2006.

Samples will be collected from all monitoring wells, recovery wells, observation wells, and collection wells with the exception of wells that contain separate phase hydrocarbon or wells that are dry or do not contain enough water to pull a sample. Wells that are included in the River Terrace Voluntary Corrective Measures Work Plan will not be incorporated into this sampling event as that project is on a quarterly sampling schedule.

Semi-annual groundwater samples will be analyzed for BTEX and MTBE using EPA Method 8021B. Basic water quality parameters such as pH, electrical conductivity, and temperature shall be monitored during purging of the wells.

If any representatives from the NMED Hazardous Waste Bureau would like to participate, Giant requires all incoming personnel to undergo safety orientation training before entering the plant.

If you need additional information, please contact me at (505) 632-4161.

Sincerely,

Cindy Hurtado  
Environmental Coordinator  
Giant Refining – Bloomfield
