Good Morning Hope,

Repairs to the BV wells and piping were completed on Wednesday February 11, 2009. The River Terrace Bioventing system was put back into service at that time.

Thanks,
Cindy

Subject: Blower at the River Station

Good Morning Hope,

Maintenance at the River Station was completed 2-03-09 and the dewatering pumps were restarted at that time. Unfortunately, the blower is down now. As you can see in the attached photo, a boulder broke off of the Bluff and as is our luck one of our T-posts stopped it from going to the river. However, the T-post also sacrificed two of our BV wells and about 60' of BV mainline pipe. It looks like the shockwave shook the piping off the supports and snapped piping at two BV wells. Extent of the damage is being assessed and repairs have started on the BV wells. I will contact you when the system is back in service.

Thanks,
Cindy
