EXTENSION REQUEST

Dear Mr. Schmaltz:

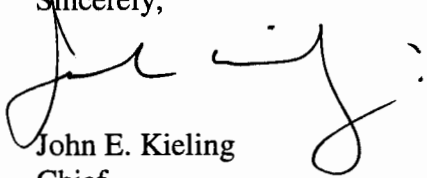

The New Mexico Environment Department (NMED) has received Western Refining Southwest, Inc., Bloomfield Refinery's (Western) *Background Investigation Report Addendum – Extension Request* (Request) dated October 26, 2014. Western requests an extension to submit a Background Concentration Investigation Report Addendum for the additional background groundwater samples by mid-December 2014. During a December 2, 2014 phone call with Western, NMED stated their concerns for submitting an addendum to the current Background Concentration Investigation Report (Report) instead of including the results in the existing Report. Rather than submitting an addendum, Western must submit a hard copy of the information in an additional section to the Report, additional data tables, a revised Table of Contents (TOC), and provide replacement pages for any applicable sections of the revised Report. In addition, Western must submit a CD/DVD with the revised Report, additional data tables and laboratory analytical data reports. NMED hereby approves the extension request and
