**Re: 2021 Annual River Terrace NOD Response and 2022 Annual River Terrace Report  
Request for Extension  
Western Refining Southwest, Inc. - Bloomfield Terminal  
EPA ID# NMD089416416, HWB-WRB-22-003**

Dear Mr. Cobrain:

Western Refining Southwest, Inc. (Western) has recently transferred management of the Bloomfield Terminal Compliance Order to a new contractor, Ensolum, LLC (Ensolum). This transition occurred after data were collected by a previous consultant for the 2021 and 2022 River Terrace sampling events. Ensolum is currently using the data to generate the 2022 River Terrace Annual Report and a response to the Disapproval Letter for the 2021 River Terrace Annual Report Voluntary Bioventing/Air Sparging System. Data migration is time consuming and taking longer than expected.

Ensolum, on behalf of Western, requests a 30-day extension of the March 1, 2023 deadline for submittal of the response to the 2022 River Terrace Annual Report and the Disapproval Letter for the 2021 River Terrace Annual Report Voluntary Bioventing/Air Sparging System.

We appreciate your consideration in this matter.

Sincerely,  
**Ensolum, LLC**
