Dear Mr. McNamar:

The New Mexico Environment Department (NMED) has received Western Refining Southwest, Inc., dba Marathon Petroleum Company's (Western) Bloomfield Terminal (Former Bloomfield Refinery) *2022 Groundwater Remediation and Monitoring Annual Report Request for Extension* (Request), dated April 11, 2023, and received on April 12, 2023. The Request states that the data migration and evaluation of the data provided by the prior consultant has taken longer than expected which has caused delays in preparing the *2022 Groundwater Remediation and Monitoring Annual Report* (2022 Annual Report). Western is requesting a 30-day extension to submit the 2022 Annual Report.

NMED hereby approves Western's Request for a 30-day extension to submit the 2022 Annual Report. Western must submit the 2022 Annual Report to NMED no later than **May 15, 2023**, as requested.
