Re: EPA Contract No. 68-01-7374; Work Assignment R26-06, Project 01:
Comprehensive Groundwater Monitoring Evaluation (CME) at Giant
Refinery (NMD000333211)

Dear Mr. Levin:

We received the revised project plan that Arthur Glazer sent me on August 16, 1988. The revised plan covers all milestones and tasks. The estimated budget therefore increased from \$10,252 and 125 hours to \$31,521 and 402 hours. The field evaluation will be conducted August 26, 1988. The completion date is contingent on the receipt of the analytical data from the laboratory.

By telephone, I discussed the revisions with Julie Wanslow of the Environmental Improvement Division of the New Mexico Department of Health and the Environment, and we have no objections. I signed and am returning the project plan approval form.

Sincerely yours,

Thomas D. Clark
Regional Project Officer

Regional Project Plan Approval

I have reviewed the attached project plan and find it meets our criteria for technical accuracy. The projected cost and hour estimates are also acceptable.

APPROVAL:

EPA Regional Project Officer
