RE: RFI Workplan - Giant Refinery - NMD000333211

Dear Mr. Stokes:

We have completed a review of your response (revised Giant RFI Workplan) dated May 17, 1990, regarding deficiencies in your RFI Workplan. We have determined the Workplan to be approvable with the enclosed revisions. Therefore, the approved RFI Workplan consists of the above referenced document and the enclosed revisions.

The submittal as reviewed is considered to be an initial Phase I of the Resource Conservation and Recovery Act (RCRA) Facility Investigation (RFI) Workplan. The Phase I RFI report as detailed in the Workplan shall be due November 30, 1990.

You shall immediately initiate the implementation of this RFI Workplan, as approved, according to the schedule contained in the Workplan. Submission of grossly deficient RFI Reports will be considered a permit violation and may subject the Permittee to enforcement action under Section 3008 of RCRA. The submission of five copies, as specified under Task V.C., is not necessary. Submission of three (3) paper copies and one computer disk copy will suffice.

If you have any questions, your staff may contact Rich Mayer at (214) 655-6775.

Sincerely yours,

Allyn M. Davis
