Originating Party	Other Parties
Louis Rose General Counsel	B. Garcia, E. Horst, B. Swanton, H. Grover & S. Alexander

Subject
Proposed Order to Giant Refining to conduct additional soil-core sampling of their Land Treatment Unit

Discussion

L. Rose: Would prefer to work within the facility permit to accomplish the goals of HRMB. Requests that Bureau call for Post Closure Care Permit.
B. Swanton: The situation is very similar to Navajo, as is the Permit, and believes that an Order would best serve the objectives/goals but is not against working within the Permit.
B. Garcia: Possibly use the Permit to achieve the goals and supplement the Permit guidelines with an Order to fill in the inadequate areas of the Permit.

Conclusions or Agreements

B. Garcia: look @ the Closure portion of the Permit to see if adequate to achieve goals & if inadequate either supplement w/ Order or use Order exclusively.
