Steve Alexander
Hazardous & Radioactive Materials Bureau
New Mexico Environment Department
P.O. Box 26110
Santa Fe, New Mexico 87502-6110

Dear Mr. Alexander:

Pursuant to Module III, Part G.2. and G.3., of the Part B Permit, Giant Refining Company (GRC) is required to conduct bi-monthly soil sampling of the ZOI interval of the land treatment area (LTA) and semi-annual sampling of the BTZ interval of the LTA.

GRC proposes to use the data collected during the recent land treatment investigation (July 31 - August 1, 1992) to satisfy BTZ sampling requirements and to sample only the ZOI interval to complete the semi-annual sampling requirements of the Part B Permit.

ZOI samples will be analyzed for:

Oil and Grease pH Total Organic Carbon Total Keljdahl Nitrogen Phosphorous

GRC proposes to sample the ZOI interval on October 29, 1992.

If you require additional information, please contact me at (505) 722-0227.

Sincerely,

Lynn Shelton

Environmental Assistant Giant Refining Company
