MEMORANDUM

TO: File, GRC/Red/93

RE: **Giant Refining Company Permit modification
submittal due April 28, 1993.**

In an April 8, 1993 phone conversation with Zeke Sherman, Giant Refining Company (GRC) environmental manager, I clarified HRMB requirements as per our February 9, 1993 letter to GRC. The letter addresses potential non-compliance with the Groundwater Monitoring Plan in GRC's RCRA permit and addresses permit modification application deadlines. I directed GRC to limit their April 28 submittal to modification of the GRC Land Treatment Unit Program, as an initial step. Then, if HRMB review of the proposed modifications indicates operation of the Land Treatment Unit can be brought into compliance, other issues, such as changing statistical requirements in the permit, will be addressed. Zeke Sherman and I discussed this approach in a second phone conversation later that same day and he concurred.
