Re: Annual Groundwater Monitoring Report
Giant Refining Company - Ciniza
Gallup, New Mexico 87502
Permit No. NMD000333211-2

Dear Mr. Horst:

While doing QA work on the recently submitted 1993 Annual Groundwater Report, an error was found in the original analytical data of Well #OW-1.

When the original analytical data from the 1992 Annual Groundwater sampling event was received from Westech Laboratories in April of 1992, Giant questioned whether the data from Well #OW-1 reflected laboratory contamination. Westech submitted a corrected copy of the data on May 22, 1993, showing no contamination existed in Well #OW-1. During assembly of the Annual Groundwater Report, the earlier, erroneous data was inserted into the report.

Please find enclosed a copy of the corrected data for you to insert in Section VII of the 1992 Annual Groundwater Report.

Giant regrets any inconvenience caused by this error. If you require additional information, please contact me at (505) 722-0227.

Sincerely,

A handwritten signature in cursive script that reads "Lynn Shelton".
