Subject: GRC Land Treatment Unit, RCRA Post-Closure Care Permit Application, Administrative Completeness Determination

Dear Mr. Platt:

The RCRA Permits Management Program (RPMP) of the Hazardous and Radioactive Materials Bureau (HRMB) has reviewed for administrative completeness the above referenced application, dated April 24, 1998, as required under the New Mexico Hazardous Waste Management Regulations.

The RPMP has determined the Post-Closure Care Permit Application to be administratively complete. This means that the Application has all the major elements stipulated in 40 CFR Parts 264 and 270.

The New Mexico Hazardous Waste Act, NMSA 74-4, and pursuant regulations at 20 NMSA 4.2, require the assessment of a permit application fee when a permit application is determined to be administratively complete. The fee for the above referenced application is \$35,000. The calculation of the fee amount is explained in the attached Permit Fee Worksheet.

The permit application fee must be paid within thirty (30) days of receipt of this letter. Review of the permit Application for technical completeness will begin upon RPMP receipt of the fee payment. Failure to pay the assessed fee by the due date may result in the issuance of a Notice of Violation and/or denial of the Application.

Dick Platt

Submit the fee in the form of a check payable to "NMED Hazardous Waste Permit Fees". Please submit the check by certified mail addressed to Ms. Chicka Ezeanyim at the above address.

If you have any question please contact Stephen Pullen of my staff at (505) 827-1558.

Sincerely,

Robert S. (Stu) Dinwiddie, Ph.D., Manager
RCRA Permits Management Program
