Mr. David Cobrain  
New Mexico Environment Department  
2905 Rodeo Park Drive East, Building 1  
Santa Fe, New Mexico 87505-6303

Dear Dave:

This is just a quick note to thank you for taking time to meet with us on Wednesday afternoon. As mentioned in the meeting, Dorinda Mancini, Dave Pavlich, Susan Collins and I are committed to providing you with the information needed to complete work on the solid waste management units (SWMUs) at the Ciniza Refinery. Toward that end, the following tasks will be undertaken within the next few weeks.

- We will work with you and the NMED librarian to review applicable documents available in your archive.
- If needed information cannot be found in your archive, then I will review files available at either the Ciniza Refinery or in Bill Kingley's office.
- If you are missing important information in your archive, then I will arrange to have this documentation provided to you.
- As soon as you have the information that you need, we would like to proceed with the No Further Action request for those SWMUs that are inactive and no longer pose a threat to human health or the environment.

Thank you again for your time. I will be back in touch shortly to schedule another visit. I am tentatively thinking of a trip in early to mid July, provided this timing is good for you.

Sincerely,

Thomas D. Atwood, P.E.
